

A RIVER RUNS THROUGH IT

Each row contains a word relating to nature’s magnificent water systems, but one letter is missing. The missing letter can be found among the other letters in that row. Using the clues, find the missing letter to complete the answer. For example, the **R** in the first row completes the word **reef**, which is the answer to clue #1.

When the grid is completed, the missing letters (read top to bottom) will spell out a hidden word.

1. An underwater ecosystem of coral.
2. A land mass surrounded by water.
3. A curl of water that breaks on shore.
4. A frozen, floating mass
5. A cascade

(This is a sample Hidden Letter game only. In these games, you will search through a jumble of letters to find the missing letters to a list of words. A secret message will be uncovered in the process. A Hidden Letter activity in a particular unit elsewhere on our website will relate to the topic being explored in that unit.)
